

Located in a small fishing village on Bayou Petit Caillou in South Louisiana, the Chauvin Sculpture Garden is a tour de force art environment created by outsider artist Kenny Hill. Biblical themes and imagery abound, over 100 life-size figural works include portraits of the artist enduring heartache, seeking redemption, and finally journeying on a path to fulfillment.

heartoffact takes the reader on an intimate visual journey through the biographical dreamscapes of the Chauvin Sculpture Garden. 76 color illustrations and a diagram map of the sculptures pay homage to this spirited place and celebrate the extraordinary energy and artistry of Kenny Hill.
