ALCOHOL AND DRUG STATEMENT

HAZING STATEMENT

Nicholls State University strives to create an environment which promotes and reinforces healthy, responsible living within the context of its educational mission.

The purpose and philosophy of Nicholls State University is the belief that educational achievement is possible only in an atmosphere of social and moral responsibility. Furthermore, The University is committed to the safety and well being of each and every student as well as the campus community as a whole. Intellectual, emotional, physical, social and other forms of development have their greatest growth when the individual is free from the inappropriate use of mind-altering substances and the threat of humiliation. Hazing and substance abuse are inconsistent with the goals of the University and responsibilities of student organizations to conduct safe, constructive student education and activities. Therefore, the University is opposed to the use and abuse of alcohol and any other drug for any purpose other than legitimate use as well as opposed to any and all actions that constitute hazing. In accordance with this philosophy and in an attempt to eliminate harmful practices, policies specific to both substance use and hazing have been adopted. The University practices "zero tolerance" regarding any and all violations of these policies. These policies are to be followed by all students and student organizations including but not limited to the Greek organization, clubs, performing groups, athletic teams, etc.

The seriousness of the topic necessitates the distribution of relevant information concerning alcohol abuse, substance abuse, and hazing. Every student and employee of the University plays an important role in helping to maintain a safe, healthy learning and living environment. Students are expected to respect themselves, others and the University community and be healthy role models by avoiding violations of the alcohol and drug and hazing policies and by making healthy, responsible choices regarding alcohol and drug use.

University Policy

The University is committed to full compliance with all local, state, and federal laws. This commitment is upheld through the University's Policy regarding Alcohol, Drugs, and Tobacco Products (section TWELVE of Code of Conduct) and Anti-Hazing Policy (section ELEVEN of Code of Conduct). Violations of these policies are considered threats to the interests of Nicholls State University and its student body. *Persons who violate the policy will be adjudicated through the University Judicial process.* Any violation of university policy or state law should be immediately reported to the University Police (448-4746) and/or the Office of Judicial Affairs (448-4531).

The full policy as well as a list of sanctions that may be imposed against offenders are printed in the [Code of Student Conduct](#). Hard copies of the Code are available through the Office of Student Life. Information can also be acquired on the University website directly at http://www.nicholls.edu/documents/student_life/code_of_conduct.pdf or go to www.nicholls.edu, click 'About Nicholls', then go to 'Compliance', to get to the Code of Conduct.

State Law

There are many local, state, and federal laws which pertain to the illegal use and distribution of alcohol, other drugs, and hazing.
