

Using Tomorrow's Tools in Today's Classrooms

Nicholls State University's PT³ Program and LACUE will be hosting a free-of-charge Saturday workshop for all K-16 teachers and NSU education students in the surrounding parishes. Attending teachers can attend sessions of choice from various concurrent presentations. Gain ideas from technology-connected lessons developed by other teachers. See how K-12 teachers are partnering up electronically with university faculty to enhance student learning. Learn to use global positioning systems and gain resources to support GPS technology within classrooms focused on national content standards.

**Registration
8:00 am**

**Sessions
8:30am–12:30pm**

**Nicholls
State
