Schedule your chemistry lab first since there is only one section of it. Build the rest of your schedule around it. If your math placement requires you to start with a lower math course than 165, start your math in the fall semester. If necessary, chemistry professional majors can postpone BIOL 155.

Scheduling of many general education courses such as the History, Humanities, Literature, Fine Arts, and Social Science electives as well as SPCH 101 and CMPS 130 is flexible. For example, CMPS 130 is listed in the fall semester of your sophomore year, but if there are no open sections when you register, you can take your literature elective then instead and take CMPS 130 later. Be sure to check the prerequisites for each course.

	CHEM 222 Organic Chem. II		Pre CHEM221 (C)	3			
	CHEM 226 Org. Chem. Lab.		Pre CHEM114 co CHEM222	2			CHEM110 = CHEM114
CHEM 300 Quant. Analysis		Pre CHEM106 & 114	3			CHEM110 = CHEM114	
CHEM 302 Quant. Anal. Lab.		Pre or co CHEM300	2

PHYS 204 Gen. Physics II Lab.		Pre or co PHYS202	1				
SPCH 101 Fund. Publ. Speak.		ENGL101 eligible	3

Schedule classes with only one section (e.g., PHYS 201, 202, 203 204, CHEM 221, 222, 300, 302) first. Avoid postponing Physics because that would push back when you can take Physical Chemistry and upper level chemistry courses and make it difficult to finish in four years.
