

**Anne
Beiler**

Anne Beiler began twisting pretzels in 1987 to support her husband's vision to offer free counseling services in their community. What began as a single farmer's market stand grew into Auntie Anne's Inc., the world's largest hand rolled soft pretzel franchise with over 1,200 locations worldwide. Anne is among an elite group of women that have founded national companies in America, and is one of an even smaller number that have owned an international franchise company.

Anne's journey to become a leading female entrepreneur began many years before the first pretzel was rolled. In September of 1975, Anne and her husband experienced any parent's worst nightmare – the loss of a child. This event propelled Anne into years of darkness during which she nearly lost her husband, her family, and her faith. Out of her pain came purpose and the desire to persevere towards personal and professional success.

Auntie Anne Beiler's commitment to excellence is rooted in the belief that we give to get, to give again; and that success can only be realized when you have a great product, great people on your team, and a purpose greater than yourself
