

CAEP Standard 4
Initial Program Completer Data; MEASURE 4
Nicholls State University
CAEP 2023 Annual Report

Measure 4 Initial: Ability of completers to be hired in their certification area

Across the F21- S22 academic year the EPP graduated 62 initial program completers from undergraduate and post baccalureate programs. The Louisiana Department of Education sends the EPP's annual employer data for program completers prior to the release of the EPP's Performance Profile. The Performance Profile is the accountability tool through which the state Quality Review System (QRS) and the EPP's impact on schools is reported. To date, the EPP has not received the 2021-2022 employment data but the EPP tracks the employment of program completers through the use of surveys, social media and texting and maintains employment records.

Of the 62 initial program completers, 61 graduates (98%) have been accounted for as being employed as a teacher or enrolled in graduate school. Despite texting and emails, one graduate (2%) could not be located and therefore, employment information is unknown. Eighty six percent of graduates are teaching in their certification area with 8 graduates (12%) enrolled in graduate school and / or serving as graduate assistants.
