

CAEP Standard 4
Initial Program Completer Data; MEASURE 4
Nicholls State University
CAEP 2024 Annual Report

Measure 4 Initial: Ability of completers to be hired in their certification area

Across the F22 - S23 the EPP graduated 71 initial program completers in undergraduate and post baccalaureate programs. The Louisiana Department of Education sends the EPP's annual employer data for program completers prior to the release of the EPP's Performance Profile. The Performance Profile is the accountability tool through which the state Quality Review System (QRS) and the EPP's impact on schools is reported. This process was delayed in 2024 (for the 2022-2023 academic year). The calculations for the 2022-2023 performance profiles will not include value-added data from the 2019-2020 or 2020-2021 renewal cycle and the LDOE requested a performance profile public release waiver from BESE. The Department will calculate the performance profiles and meet with each provider to discuss their results and recommendations this summer. At this time, employment data have not been released so the EPP used surveys, district websites and social media to track the employment status of the 71 program completers.

Of the 71 initial program completers 48/71 Candidates (67%) are currently teaching in their certification areas; 2/71 Candidates (3%) are working as Graduate Assistants and/or enrolled in graduate school; and 7/71 Candidates (10%) were not trackable via surveys, texts and social media. These candidates may be teaching in their certification area but the EPP does not have evidence on their current employment status.

The EPP will receive confirmation of employment, and data on the 7 "missing" program completers from the LDOE in summer 2024.
