Initial Program Completer Data; MEASURE 4
Nicholls State University
CAEP 2026 Annual Report

Measure 4 Initial: Ability of completers to be hired in their certification area

Across the F24 - S25 the EPP graduated 60 initial program completers in undergraduate and post baccalaureate programs. The Louisiana Department of Education sends the EPP's annual employer data for program completers prior to the release of the EPP's Performance Profile. The Performance Profile is the accountability tool through which the state Quality Review System (QRS) and the EPP's impact on schools is reported. The EPP used surveys, district websites and social media to track the employment status of the 60 program completers.

Of the 60 initial program completers, 52 (87%) are currently employed in education or enrolled in graduate school. Specifically, 44 (73%) are teaching in their certification areas, while 16 (27%) are teaching in private schools, outside their certification areas, or serving as graduate assistants.

Further information on workforce data is provided by the Louisiana Department of Education in their [2024-2025 Educator Workforce Snapshot](#).
