Semester & Year Seeking Honors Credit _____ Student's Nicholls Email _____

At semester's start, the student must:

- provide a typed proposal of special honors credit requirements (150-200 words).
- obtain approval signatures (1-5) in numerical order.

At semester's end, the instructor will be contacted by the Honors program and at that time must submit a report of the grade earned on Honors credit assignments for the semester.

The University Honors Program has created this Petition and Proposal for Honors Credit to allow honors students to gain honors credit in a non-honors course. By completing additional course activities, honors students can earn honors credit for a standard, non-honors course. Activities deserving of honors credit will be created by the course instructor and executed by the student with the consent of the instructor, as well as the department head and dean of the instructor's department. The Honors Program will ensure that the proposed activities are in line with the Honors Program's objective. Copies of the accepted petition and proposal will be kept by both the instructor and the Honors Program. **In addition to successfully completing the Honors Petition Activities, students must obtain a B or above in the course to receive Honors credit.** Performance on such honors credit activities is separate from performance on regular course activities, and grading for one should not impact grading for the other. The student has the option of withdrawing from assigned honors credit activities at any time throughout the semester. The student cannot receive honors credit for a course that also offers an equal honors course.

Signature of Approvals:
