University Health Services (UHS) will validate / monitor students’ evidence of meeting health requirements. Laboratory results, evidence of immunizations, and completed physical examination form must be provided to UHS in order to obtain the status of “clinical compliance.” Upon admission to the program, and each and every semester thereafter, the student must re-confirm clinical compliance through UHS.

- **Measles (Rubeola)** – (2) doses of measles vaccine or positive Measles antibody IgG titer
- **Rubella** – (1) dose of rubella vaccine or positive Rubella antibody IgG titer
- **Mumps** – (1) dose of mumps vaccine or positive Mumps antibody IgG, EIA Serum titer
- **Tetanus-diphtheria** (also known as Td, DT, DTP, DTaP, Tdap) – must be within last 10 years / must remain current throughout enrollment; evidence of vaccine required
- **Hepatitis B** – series of three (3) injections or HBV Surface Antibody Quantitative Titer drawn; results must be reactive
- **Varicella (Chickenpox)** – (2) doses of Varicella vaccine or Varicella-Zoster Virus antibody IgG titer; Results must be positive > 1.10
- **Tuberculosis (TB)** – A negative PPD. Annual testing is required. If PPD is positive, a negative chest x-ray is required for program admission / clinical course. Thereafter, a physician’s statement confirming that the student shows no signs or symptoms of TB and stating that the chemotherapy for TB is not indicated will be required at the time of renewal of clinical health requirements.
- **VDRL or RPR** – negative result
- **Health and Physical Examination** – A health and physical examination is required upon admission to the program. The Nicholls State University UHS examination form is to be completed and signed by a physician or nurse practitioner and then submitted to UHS.

No waiver(s) for any immunization(s) will be accepted unless there is a documented medical reason.

A list of prescription maintenance drugs must also be provided.

Refer to ICMSN Student Handbook for all Health Requirements.
