

BEST PRACTICES

Automated Proctoring with ProctorU

Requirements

1. Make sure you have a ProctorU instructor account.
 - You can create one at <https://go.proctoru.com>.
2. Install the ProctorU extension for either Google Chrome or Mozilla Firefox.
 - Either can be downloaded from <https://www.proctoru.com/firefox>.

3. Login into your ProctorU account through the extension

Any edits to your exam without the ProctorU extension present could result in exam syncing issues.

Reviewing Exam Entry Inside ProctorU

Do not update the highlighted fields below. These settings control the type and cost of exams, and may cause an error for students, if adjusted.

- Any updates or changes to an exam should be made through Canvas while you are logged into the ProctorU extension. Do not use the **EDIT THIS EXAM** feature in the ProctorU system.
- Make sure to provide test-takers with information about ProctorU in advance - <https://www.proctoru.com/auto-resource-center>
- Do not use automated proctoring for 3rd party exam sites ProctorU is not directly integrated with such as Cengage, McGraw-Hill, etc. Please contact your ProctorU representative for assistance with these exams.
