

Industrial Ties Research Subprogram

Internal Review for BoR ITRS Grant

Due in ORSP 16 September 2024

The Industrial Ties Research Subprogram supports research efforts that show significant potential for contributing to the development and diversification of Louisiana's economy in the near term. Funded projects are required to involve significant private sector or Federal funding or, at a minimum, include a plan to leverage substantial Federal or private sector funding in the near future; and link research efforts to establishment of a new or enhancement of an existing Louisiana business or industry. A consolidated component of ITRS, the Proof-of-Concept/Prototyping Initiative provides funding to enable technology transfer research and activities, to advance innovations toward commercialization.

Industrial Ties Research Subprogram

Internal Review for BoR ITRS Grant

Due in ORSP 16 September 2024

Please attach a document addressing the following topics: Please provide informative answers and use as much space as needed. This review may well impact your funding.

- 1. Provide a description of this project.** *You can copy and paste the description that you used for the Notice of Intent submitted to the Board of Regents.*
- 2. Why is this project important to you and the Nicholls community?** *You may want to include professional development opportunities for faculty, conference attendance by students, research opportunities for students (undergraduate and graduate), equipment that will be purchased, potential social media promotion, and other ways that the Nicholls community will benefit if this project is funded.*
- 3. Briefly describe how this project will contribute to the development and diversification of Louisiana's economy?** *The purpose of this funding program is to promote the development and diversification of the Louisiana economy. Therefore, please include your estimate of how this project may impact the Louisiana economy.*
- 4. Briefly describe the industry or federal funding involved in this project and how the grant funds will be used. Include the funding amount and describe how funds will be used for each funding category below.** *These numbers are not binding, but should reflect a reasonable estimate for each category. If you are not asking for funds in a particular category, please enter NA. For PI salary, please include if it will be used for match, summer salary, or buy-out.*
 - **PI Salaries (include if match, summer salary, or buy-out):**
 - **Student Salary (specify graduate and/or undergraduate):**
 - **Travel:**
 - **Supplies:**
 - **Operating:**
 - **Equipment:**
 - **Match (provide source and amount; if committed by source, provide documentation):**
 - **Other:**
