

Workshop Name

Surviving vs. Thriving Students

Year Offered

16-17

Description

These sessions engaged faculty in discussion about the characteristics of these categories of students as a way of thinking about how and when to intervene with those who are merely getting by. In preparation for the workshop, faculty viewed Laurie Schreiner's presentation at the National Symposium on Student Retention (NSSR) in 2016, "Beyond Grades and Graduation: Thriving as a Retention Strategy [<https://youtu.be/dtmt24qqvtA>].

Keywords

Relational, Thriving, Success

Workshop Name

Student Success

Year Offered

16-17

Description

These sessions encouraged faculty to think about how we define student success, particularly at Nicholls, in light of who our students actually are. In framing this interactive (sometimes lively) discussion about intrusive advising with data — such as what percentage of students at Nicholls are first-generation or low-income — the presenters made the case that SAM is about much more than simply helping students to choose the classes for the next semester. In preparation for “Student Success,” faculty viewed Jillian Kinzie’s presentation at the NSSR in 2016, “Student Success in Colleges and Universities: Advancing Know-What and Know-How.”

[<https://youtu.be/aXnTRkOtfMU>]

Keywords

Conceptual, Study Skills, Metacognition

Workshop Name

Nuts and Bolts of Advising

Year Offered

17-18

Description

For "Nuts and Bolts," members of the SAM implementation team developed a presentation and discussion focused on the issues involved in transfer advising.

Keywords

Informational, Advising,

Workshop Name

High-Impact Learning Practices

Year Offered

17-18

Description

This data-driven session was a general overview of the research supporting the use of High Impact Practices across the curriculum, including institutional research -- from the NSSR -- on student engagement at Nicholls. The goals were two-fold: to increase faculty knowledge and comfort in discussing HIP opportunities with advisees; and, to encourage the systematic use of HIPs in programs across campus.

Keywords

Informational, NSSR,

Workshop Name

HIP Panel Discussion

Year Offered

18-19

Description

Faculty from across campus will discuss examples of ‘High Impact Practices’ developed and delivered in courses here at Nicholls, focusing on the planning, design, and implementation of these (and what challenges they needed to overcome in order to ensure their success).

Keywords

Informational, Workshop,

Workshop Name

Advising Scenarios

Year Offered

18-19

Description

Panelists will introduce a set of advising scenarios based on actual experiences here at Nicholls and lead a discussion with workshop participants on best practices in approaching the issues presented, offering insights from their own backgrounds as effective advisors.

Personal, Student Services,

Workshop Name

Demystifying the Moodle Gradebook

Year Offered

18-19

Description

You know it's supposed to make your life easier, but the Moodle gradebook seems designed to torture you. Fortunately, Nicole Cotton will be on hand to help you design, navigate, and use the Moodle gradebook in ways that will make life better for you and your students.

Keywords

Technology, Tech,

Workshop Name

LiveText

Year Offered

18-19

Description

Participants received a broad overview of LiveText and the various tools and functions that can be performed. Participants also learned basic navigation of the LiveText system, giving them a clear understanding of how to create assignments, copy assignments, manage assignments, and create assessment reports to show achievement of student learning outcomes. After completing this session, participants know how to author work, such as an assignment template or rubric, in LiveText and share with other members.

Keywords

Technology, LiveText,

Workshop Name

GradesFirst

Year Offered

18-19

Description

Normally conducted in computer labs, the GradesFirst workshop presents an overview of the system for faculty interested in becoming users of the program as well as current users who would like a refresher course. A demonstration is followed by questions and case examples of specific program features.

Keywords

Technology, Technology,

Workshop Name

Counseling Services & Student Access

Year Offered

18-19

Description

Among the SAM learning outcomes for students is the expectation that students can connect extra-curricular opportunities and student services with their own goals; this workshop introduced (or reintroduced) faculty to Counseling Services and Student Access services here at Nicholls, with attention to the ways in which advisors might recommend services like these and others to students.

Keywords

Informational, Counseling, Access

Workshop Name

Banner/CAPP

Year Offered

17-18

Description

The Banner self-service system includes a set of useful, if occasionally confounding, tools for advisors and advisees, chief among which is the CAPP -- Curriculum Advising and Program Planning -- module. This workshop introduced CAPP basics and best practices and provided some examples of CAPP in action.

Keywords

Technology, CAPP, Technology

Workshop Name

Degree Pathways

Year Offered

17-18

Description

This workshop provided an opportunity for review and revision of the degree pathways envisioned by SAM, with attention to the different audiences and purposes for these, from students themselves (for whom they ideally serve as what Complete College America calls 'Academic Maps') to first-year and, later, department advisors. It also provided an opportunity to take a fresh look at program degree plans.

Keywords

Informational, Plans,

Workshop Name

Interventional Mentoring: When and How

Year Offered

17-18

Description

These sessions started with a nod to the sessions the year before on "Surviving vs. Thriving Students," as it's important to acknowledge that there are in fact a variety of ways good advisors and mentors know when to intervene. After an interactive quiz on policies impacting student standing and records, Dr. Richard reviewed the kinds of data available and how advisors might aggregate and analyze it. The session concluded with group discussions of a variety of advising scenarios.

Keywords

Personal, Data, Technology

Workshop Name

Introducing Moodle 3.4

Year Offered

18-19

Description

These sessions provided faculty with an overview of recent changes to Moodle, with the aim that participants will be able to: vavigate Moodle 3.4 efficiently; add navigation and administration blocks to a course; enroll and unenroll students from a course; use newly added configuration settings in various Moodle activities; move multiple items in the gradebook to a category; and, configure notifications.

Keywords

Technology, Tech,

Workshop Name

Personalized Online Instruction

Year Offered

18-19

Description

In this session presented by NSU Graduate Marcus Stein, faculty learned how to create brief, targeted screen recordings using PCs, MacBooks, iPads, and Chromebooks. Participants also learned how to facilitate engaging video discussions using screen recordings and FlipGrid, a free video discussion platform.

Keywords

Technology, Engagement, Online

Workshop Name

Active Learning

Year Offered

18-19

Description

Dr. Aimee Hollander reviewed multiple ways to employ active learning techniques in the classroom and practiced simple to highly complex active learning strategies. Faculty participants identified active learning strategies that will work best in their classrooms; practiced employing simple to more complex active learning strategies; and, discuss how to assess whether active learning strategies are making a difference in student success in their courses.

Workshop Name

Using Moodle to Identify At-Risk Students

Year Offered

18-19

Description

In this special SAM session for the CAFÉ, Nicole Cotten and Lori Richard teamed up to discuss straightforward ways of using tools built into Moodle to identify and intervene when students might benefit from an extra push. Faculty participants learned how to identify and message students who have not responded to a forum;

how to identify and message students who have not submitted an assignment for grading; how to view a course participation report to identify students that are at-risk to fail or drop your class; and, how to set up completion tracking to help your students stay on task (especially useful in an online course).

Keywords

Informational, Intervention, Tech

Workshop Name

Active Learning in Lecture Classes

Year Offered

18-19

Description

In this special session hosted by Nicholls Chemistry, Dr. George Stanley -- Cyril & Tutta Vetter Alumni Professor at LSU -- will share some approaches to active learning in lecture courses. Dr. Stanley spoke about daily quizzes, essay-style homework assignments, and the impact of grouping students in large lecture classes.

Creating an Effective Peer Mentor Program

Year Offered

18-19

Description

This webinar presentation addressed the limited resources and increasingly complex student demographics and issues that require institutions to rely on peer mentors to enhance the support that faculty and staff already provide. Peers are in a unique position to role model how to succeed both academically and socially and know how students actually navigate our colleges and universities. Peer mentors help to improve success for all students — particularly diverse and traditionally disadvantaged college populations by increasing their engagement, retention and graduation rates.

S20 Issues and Strategies for Facilitating an Inclusive Online Learning Environment

Year Offered

19-20

Description

Key categories for access, including technological limitations, students with disabilities, and marginalized populations. Participants will be asked to consider how these factors might impact students in the online environment in particular. Then, strategies will be presented for promoting inclusivity, including universal design in the online environment (e.g. captioning, screen readers), online-specific accommodations (e.g. extended testing time, note-taking), and encouraging whole-class discussion. By the end of this workshop, participants will: consider multiple factors that may impact the inclusivity of their courses in an online environment and gain knowledge of specific strategies to promote inclusivity in online learning.
